the ink on the treaties of rome of 25 march 1957 was hardly dry when the commission set itself up for business on 1 january 1958 in brussels with an agenda covering all areas of the economic life of the six founder countries germany france italy and the three benelux countries of belgium luxembourg and the netherlands the 15 year period from 1958 to 1972 covered by this work corresponds to the beginnings of the european commission whose first task was to come up with practical means of achieving the treaties main objective the establishment of a common market taking as its point of departure the general interest of the entire community of six member states forged by men and women with often very different backgrounds the history of the first few years is one of crises but also of achievements which shaped the major milestones of european integration in almost every area imagination long term vision enthusiasm and tenacity seem to have been the great virtues of the people working for the young european institution at that time by piecing together over a number of years the recollections of former commission officials a consortium of university teachers under the direction of professor michel dumoulin of the catholic university of louvain at louvain la neuve has at last made it possible to tell the story of what happened during those early days this is a new edition of the book originally published in 2007 a similar project has since resulted in the publication of a book about the history of the commission between 1973 and 1986 editor

includes the report of the annual conference of the commercial apiarists association of n s w and various other associations

in developing countries labour markets play a central role in determining economic and social progress since employment status is one of the key determinants of exiting poverty and promoting inclusion yet the reality in most developing countries is that the

labour market fails to create the jobs in the formal economy that would help individuals and their families prosper in recognition of these challenges governments and other stakeholders in developing countries have increasingly prioritised policies and programmes to promote decent work however this requires navigating a range of complex issues and debates surrounding the linkages between development processes and labour market outcomes this volume consists of three main thematic parts part i provides a broad overview of key issues including characterising the employment challenge in developing countries and the link between economic growth distribution poverty and employment drawing on the literature and country examples part ii analyses the specific topics of wages migration and education the final section shifts to a more normative focus addressing labour market institutions and policies along with systematic approaches to quantifying labour markets in developing countries perspectives on labour economics for development is an invaluable reference for policy makers in middle and low income countries as well as an ideal handbook for teachers and students of economics and development
