if it were once believed that the freedom of churches should be restricted to bring greater control to missions roland allen sets out to overturn this conception warning against the danger of imposing greater limits on churches the author advocates that all members of the church natives and foreigners alike must take an active role in its establishment and daily life the study divides itself into nine chapters the first introducing allen s standpoint the second as an opening into thenature and character of spontaneous expression the third chapter deals with modern attempts by natives towards the liberty of their churches the fear of the doctrine becoming weakened by natives taking it into their own hands is addressed by chapter four and this fear is widened into the realm of the christian standard of morals in chapter five civilisation and enlightenment form the central themes of the sixth chapter chapters seven and eight tackle the distinction between the church andmissionary societies it is in the final chapter that the future of spontaneous expansion is investigated and allen puts forward his ideas which as he rightly predicted were broadly accepted fifty years and longer still after their original publication

roland allen is internationally renowned for his controversial solutions to dilemmas within churches and missions his works were first written in the first decade of the twentieth century yet their ideas are so radical that they are still relevanttoday indeed allen predicted that his principles would not be broadly accepted until around fifty years after their creation this selection of works by this mission pioneer and creative thinker takes extracts from allen s other writings which although having potential to be just as influential as those better known have long been out of print it is now the present day reader s chance to investigate the theories within texts such as pentecost and the world non professional missionaries mission activities considered in relation to the manifestation of the spirit st paul and the judaizers a dialogue an illustration from v s azariah the case for voluntary clergy and to the parishioners of chalfont st peter throughout all of these writings is allen s central belief that the holy spirit is in the church everywhere this selection of texts makes an ideal

accompaniment to allen's significant works on missionary methods and principles including missionary methods st paul's or ours missionary principles the spontaneous expansion of the church all of which have been reprinted by the Lutterworth Press

within a decade st paul established the church in the four provinces of galatia macedonia achaia and asia this informative study focuses on the social background to the apostle's missionary journeys with comparisons between his methods and those of the modern day the book divides into five parts the first examines the social and religious world which the apostle inhabited in ad 50 the second addresses how st paul presented the christian gospel and his financial policy of self support for the new churches here contrasts are made between st paul's financial and missionary principles which differ alarmingly from those of the nineteenth and twentieth centuries the rapidity of the apostle's appointment of responsible church leaders is sharply contrasted with the slowness of the present in the third part part four deals with st paul's procedures for authority in churches where those of the present day fail to address the conscience of the local church conclusions are provided in part five and the clarity and vigour of allen's style ensures the reader's interest is maintained to the end many missionaries in later days have received a larger number of converts than st paul but none have so established churches we have long forgotten that such things could be extract from chapter one

no one was more radically critical of the ministry and the inherited church policy that surrounds it than roland allen 1868 1949 whose prophetic writings constantly challenge the whole mission of the christian church and many of his most important essays are collected here along with contributions about him after studying at oxford his clerical training was in leeds he went as a missionary to china for the society for the propagation of the gospel spg where he stayed for twenty years his experience convinced him that missionary methods needed changing and that st paul had more to offer than contemporary practice and in particular that ministry should be centred in the laity these ideas unpopular at the time have grown in importance and roland allen's influence is now greater than at any time in this volume paton with the co operation of grubb and king has written on the central concerns of allen's life and how his witness gave rise to many fruitful enterprises in different parts of the world many new writings of allen's are included in the volume and grubb tells the story of the survey application trust which for over half a century played a formative and pioneering part in the mission of the church this title adds a lot of new information and throws fresh light on the modern history of many christian enterprises and extends current debate over the role of the laity

first published in 1913 missionary principles is a classic textbook by genre but in its controversial evaluation of the church's missionary theories it is by no means wholly traditional at the centre of this discursive study allen asserts the distinction which needs to be made in missionary aims between the extension of the church and the preaching of jesus christ the book is divided into four major chapters entitled the impulse the hope the means and the reaction the impulse hope and means of missionary work can all be embodied by jesus christ who is viewed as the source the end and the worker it is always with this objective in mind that allen guides the reader through christ's wishes as to how the word should be spread in the final chapter allen examines the results of

believing in the holy spirit s inspiration and the effects this has on the missionary s understanding of moral purpose and motive of missions both at home and overseas it is not the same thing to seek the manifestation of christ in the growth of the church and the effect of that upon all missionary work is most profound extract from chapter two

this book includes twenty one comprehensive chapters addressing various soil and crop management issues including modern techniques in enhancing crop production in the era of climate change there are a few case studies and experimental evidence about these production systems in specific locations particular focus is provided on the state of the art of biotechnology nanotechnology and precision agriculture as well as many other recent approaches in ensuring sustainable crop production this book is useful for undergraduate and graduate students teachers and researchers particularly in the fields of crop science soil science and agronomy
