from Mrs Peel to the first female doctor who this book offers a timely focus on the popular phenomenon of the cult TV heroine the enduring phenomenon of cult TV itself is carefully explored through questions of genre the role of the audience and the external environment of technological advances and business drivers Catriona Miller then suggests a fresh account of the psychological dimension of the phenomenon utilising Carl Jung's concepts of the transcendent function and active imagination her analysis of the heroines themselves considers the workings of the audio visual text alongside narrative and character arcs exploring the complex and contradictory ways in which the heroines are represented established cult TV favourites such as Buffy the Vampire Slayer the X-Files and Xena Warrior Princess are examined alongside more recent shows such as Chilling Adventures of Sabrina Jessica Jones and American Horror Story Coven

In this path-breaking book Anna Arrowsmith analyses gendered dating behaviour and shows how men's behaviour is both defined and illustrated by societal norms that require a particular masculine performance including those desired by potential female performers using the case study of pick-up artistry which is compared to interviews with other men who date women this book analyses how the men deal with conflicting ideas borne out of living in an age when both hegemonic harder historic and inclusive softer modern

masculinities co exist it asks whether men acknowledge their own insecurities or whether they focus on perceived external triggers such as female culpability as a means of ignoring their own concerns or whether men respond to insecurities by focusing on an active process of overcoming them through exploring male experiences of female beauty emotions fertility strength female violence and sexual assault arrowsmith s findings encourage a new path of enquiry in gender studies which explores and includes men s words as central to interpreting their behaviour and how it is understood this book has political worth as it differentiates and delineates between emotive and often misogynistic demands for an entire rethink of the gender order by some men s rights activists and a genuine need to incorporate male insecurities and psychological experiences in how we understand gender to be structured and performed as a means to increase equality
