the usa is widely seen as the country at the centre of the recent economic crash but will this be the case the next time the system goes into shock this book analyses how the political and economic imbalances in china will exacerbate system collapse and how this could happen much sooner than we imagine possibly within a decade by looking at the big questions of class struggle global economic imbalances peak oil climate change and political power play minqi li argues that by the time of the next crisis china will be at the epicentre of these contradictions china is the last large region and source of cheap labour into which capital could expand the system is at its limits by combining this argument with issues surrounding the planet s ecological limits and the internal politics of the chinese communist party li commands a narrative of china at a pivotal and

possibly apocalyptic stage

this book investigates the preferences of young job seekers for different aspects of corporate social responsibility csr in comparison to other non csr related employer attributes it takes into account the potential influence of cultural and socio economic variables and provides a differentiated global perspective in its first part the book gives an overview about the impact of csr on employer attractiveness and explains the factors that potentially influence csr preferences of young job seekers all over the world in a second part the research design is outlined and employer related preferences of 4783 graduates and students coming from 22 countries across the globe are discussed in the third part research results are presented for different cultural clusters the most important criteria for employer choice of respondents are reflected against the socio economic background and against the characteristics of csr of the countries in question finally the results are summarized and implications for global employer branding are derived

geriatric rehabilitation addresses the fact that this is an age in which individuals have increasing longevity better health care education and expectations of health care which present new increasing and even radical challenges to health care providers the care of our older patients in rehabilitation settings demands the broad understanding of the key differences in strategies to care for older adults the combined skills embraced in rehabilitation and geriatrics are presenting unprecedented opportunities for both fields to make substantive and even ground breaking improvements in the lives of millions of older adults who entrust their lives to us rarely in one s medical career are such opportunities so evident and achievable geriatric rehabilitation edited by dr k rao poduri md faapmr draws on a distinguished group of authors who are the front line providers of care to the older adults this book presents the full spectrum of the unique care needs of older patients who need the combined skills of physical medicine and geriatrics it provides an easily accessible means of acquiring and improving these new skills for all those involved in geriatric care

tackling translational medicine with a focus on the drug discovery development interface this book integrates approaches and tactics from multiple disciplines rather than just the pharmaceutical aspect of the field the authors of each chapter address the paradox between the molecular understanding of diseases drug discovery and drug development laying out the detailed trends from various fields different chapters are dedicated to target engagement toxicological safety

assessments and the compelling relationship of optimizing early clinical studies with design strategies the book also highlights the importance of balancing the three pillars sufficient efficacy acceptable safety and appropriate pharmacokinetics all of which are crucial to successful efforts in discovery and development with discussions regarding the combined approaches of molecular research personalized medicine pre clinical and clinical development as well as targeted therapies this compendium is a flexible fit perfect for professionals in the pharmaceutical industry and related academic fields

with the rise of homelessness in many u s cities municipal governments are sanctioning organized encampments as an official strategy for sheltering unhoused people examining the shortcomings and consequences of these municipal policies the injustice of property explores how unhoused individuals living in self managed encampments navigate and organize themselves within and against the confines of liberal property systems through ethnographic research in portland oregon a paradigmatic city in advancing this model of homeless shelter stephen przybylinski details the everyday struggles of self managed encampments to highlight how key contradictions inherent to liberal ideology maintain property as a means of structuring sociopolitical equality he argues that justice cannot be realized for unhoused communities within the liberal model of private property due to how liberalism and liberal ideology prioritize the rights and values of property over the personal rights of self governance the injustice of property is a conceptually robust and empirically rich account of the limits of liberal thinking regarding what just property relations look like for unhoused and housed people alike the book shows that while encampment communities struggle to establish alternative property relationships to the traditional model of private ownership the injustices that residents of encampments face provoke a necessary reevaluation of how beneficiaries of property systems influence who can become housing stable and on which terms this insightful book reveals how the injustices surrounding portland s encampment communities reflect the limits and injustice of liberal property more broadly

satire humor and environmental crises explores how satire and humor can be employed to address and mitigate ecological crises at individual and collective levels besides scientific and technological endeavors solutions to ecological crises must entail social and communicative reform to persuade citizens corporations organizations and policymakers to adopt more sustainable lifestyles and policies this monograph reassesses environmental behavior and messaging and explores the promises of humorous and satiric communication therein it draws upon a solid and

interdisciplinary theoretical foundation to explicate the individual social and ecospheric determinants of behavior creative works of popular culture across various modes of expression including the simpsons last week tonight with john oliver and the new yorker cartoons are examined to illustrate the strong if underappreciated relationship between humor and the environment this is followed by a discussion of the instruments and methodological subtleties involved in measuring the impacts of humor and satire in environmental advocacy for the purpose of conducting empirical research more broadly the book aspires to participate in urgent cultural and political discussions about how we can evaluate and intervene in the full diversity of environmental crises engage a broad set of internal and external partners and stakeholders and develop models for positive social and environmental transformations this book will be of great interest to students and scholars interested in environmental humanities communication science psychology and critical humor studies it can further benefit environmental activists policymakers ngos and campaign organizers
