new york times bestselling author over a decade ago following a rise in developmental disorders such as autism and adhd the mercury containing preservative thimerosal was widely believed to have been eliminated from vaccine supplies however dangerous quantities of thimerosal continue to be used posing a threat to public health in this groundbreaking book robert f kennedy jr and dr mark hyman examine the research literature on thimerosal and make a very clear statement about its potentially dangerous effects in the past the cdc fda nih and aap as well as the us congress the american academy of family physicians the us department of agriculture the european medicines

agency and the california environmental protection agency have expressed concerns over the use of thimerosal in vaccines but despite the many voices calling for action the media and policy makers have repeatedly failed to adequately address the issue now with thimerosal let the science speak the goals are to educate parents doctors and health policy makers to eliminate this toxic chemical from the world s vaccine supplies to move toward safer alternatives and to maintain or increase vaccination rates critical to the united states and developing nations with safer options available parents shouldn t have to worry about the devastating effects of vaccinating their children

education is a paradoxical phenomenon on the one hand it is universal as since the period of enlightenment it has been declared universal good for everybody mo over we learnt by historical research following the ideas of world system theory that since this time as far as its main structures are concerned compulsory state education given by professional teachers in classrooms it took even universal traits however on the other hand the fact that education became state education organised or at least controlled by the state was the beginning of another tradition line education in the form of state organised educational institutions became a means of creating national identity universal inclusion as for the light of reason shining for everybody is opposed to more or less nationalist exclusion of all the others shaping the feature of a particular nation state with a particular educational system this fundamental dialectical tension between the universal and the particular was one to the important motives to make this handbook one of the central issues of the country studies is precisely to display the relationship between universal v ues and the search for national identity another motive is given by the european dimension of the handbook
